EXPERIENCE

Magento Teknik, Istanbul — *Front-End Developer*

November 2021 – July 2025

- Improved the UI/UX of existing e-commerce websites through visual upgrades.

- Developed and published multiple e-commerce applications to the App Store and Google Play, along with corresponding web platforms.

- Built POS (Point of Sale) applications and admin dashboards to manage in-store operations such as customer orders, product tracking, appointment status, and financial management.

- Implemented and upgraded payment systems using Nkolay, PayTR and Stripe.

- Migrated existing React projects to Next.js for enhanced performance and SEO optimization.

- Created advanced visual effects using JavaScript and HTML5 Canvas.

- Built a complete Magento-based e-commerce application from scratch using React Native and Expo for long-term internal use.

- Collaborated with international teams across different time zones.

- Mentored junior developers and accelerated their learning and productivity.

- Integrated features such as appointment booking, product rentals, return handling, design customization and user-to-user selling across industries including hair salons, fashion, watches, art, and general merchandise — supporting businesses generating over $1M in monthly revenue.
